

**Dr. Hubert-K. Hartl, departed on January, 18, 2008**

**Your farewell was like your life:  
"Fast and intensive"**

Your friends from the board of the Austrian Hemophilia Society:

Josef, Peter, Richard, Thomas

Vienna, January 2008

Dear friends in the Hemophilia Societies,

The attendants of the tenth winter camp of the Austrian Hemophilia Society in Tyrol are still shocked due to the sudden death of Hubert Hartl.

Hubert and his family arrived at the campsite some days previous to complete some organisational tasks. During this time he felt sick and must be taken to the hospital in Innsbruck. Despite manifold medical interventions his health status gets worse. In the morning of January 18. he passed away due to liver failure with following multitorgan collapse.

His wife Monika, his daughters Arlene, Katharina, Franziska and his mother and his brothers had the opportunity of a dignified farewell. The last goodbye with the deceased, in common with his wife and his daughters and some good old companions was deeply moving. This farewell will be in my minds constantly.

*Dear Hubert, your sudden death rips an everlasting gap by your beloved ones. In the various associations and organisations you were involved, is great mourning and sympathy with your family.*

Josef

Josef Weiss  
Chairman Austrian Hemophilia Society

*Hubert is buried at his birthplace Vitis in Lower Austria.*
